Automated Certificate Management has failed for your app bible-app

Heroku Notifications <bot@notifications.heroku.com>
An: hjstephan86@gmail.com

4. August 2025 um 05:59

Hi,

Automated Certificate Management has failed for the following domains:

Domain	Reason
www.123-bibel.de	Unable to resolve DNS for www.123-bibel.de

You should be able to find specific information to correct the above noted errors at:
<https://devcenter.heroku.com/articles/automated-certificate-management#troubleshooting>

Happy coding,

Heroku
